NABT PROFESSIONAL DEVELOPMENT CONFERENCE 2011

Biotechnology Explorer™

Meet the Author Event!

Come meet Kirk Brown, author of *Biotechnology: A Laboratory Skills Course!* Kirk will be signing copies and answering questions about his new book during the exhibit hall gala opening. He will be at booth #306 on Thursday, October 13th from 5:00–7:30 PM. Books can be purchased on-site with a credit card or check.

- Laboratory equipment
- Classroom kits
- Professional development
- Workshops
- Expert technical support

New Protein Purification Series

From industrial enzymes to cancer therapy — protein purification is essential! Biotechnology Explorer makes it easy for you and your students to experience protein purification. Teach the core process of expression and purification of bioengineered proteins using this clear and concise modular lab series. Help your students gain hands-on experience and give them the confidence that they need to work with proteins.

Join us for our hands-on workshop October 14, 9:30 AM to 12:30 PM, in Rancho Las Palmas.

FROM THE PRESIDENT

Welcome to Anaheim and the 2011 NABT Professional Development Conference. The 4-day program features renowned speakers, hands-on workshops, informational sessions, and special events that will help you grow as a biology educator for the 21st century. As important as these programmed opportunities are to your professional development, you also need to develop and nourish networking opportunities while at conference. While it is always enjoyable to “catch up” with old friends and colleagues, I encourage you to make a special effort to talk to someone new, whether it is a speaker, an exhibitor, a Board member, someone you met in the exhibit hall, or someone sitting near you at lunch. The personal and professional relationships that you form and maintain at conference will last a lifetime and impact your growth as an effective and efficient biology educator in ways that you can only begin to imagine.

Attending the NABT Professional Development Conference is one of the best investments you can make to become a better biology educator. Take advantage of all the opportunities that it offers. You will leave inspired, informed, and connected.

Dan Ward
NABT President - 2011

GENERAL INFORMATION

About NABT

The National Association of Biology Teachers (NABT) is *the leader in life science education*.™ Our association is the largest national association dedicated exclusively to supporting biology and life science educators. Our members—representing all grade levels—teach more than one million students each year! Visit our Web site at www.nabt.org.

About the National Conference

All functions, meetings and exhibits will take place at the Anaheim Marriott unless otherwise noted.

About the Exhibition

More than 60 booths will showcase the latest products and services for biology educators. You will have an opportunity to examine a wide variety of up-to-date teaching materials. Science equipment manufacturers, publishers, science suppliers, computer hardware and software developers, environmental groups, government agencies, health organizations, and many other companies will be on hand to show you how their products will help you in the classroom or laboratory. Registration badges are required for admission to the Exhibition.

Exhibit Hall (Marquis Ballroom) hours are:

Thurs., Oct. 13	Grand Opening 4:45 pm – 7:30 pm
Fri., Oct. 14	9:30 am – 4:30 pm
Sat., Oct. 15	9:30 am – Noon

Field Trips

Two trips to Anaheim attractions are scheduled. Transportation will be provided. All buses depart from the Anaheim Marriott. For questions about field trips, please go to the registration area located in the Marquis Ballroom Foyer. (Note: Advance registration is required. Space is limited.)

Turbo Charge Strand

The 2011 NABT Professional Development Conference will feature a special stand of highlighted sessions to *Turbocharge Your Curriculum* and give your students the skills they need to succeed at the next level. Many of these sessions are designed to support at-risk students, improve graduations rates, and be “instantly” implemented when teachers return from the conference.

The Turbo Charge Strand is highlighted throughout the program with boxed sessions.

For Persons with Disabilities

Careful thought is given when planning the NABT Conference so that it is accessible to all persons. Should you require special services, please go to the registration area located at the Marquis Ballroom Foyer and contact an NABT representative. We will strive to meet your needs.

Registration Hours

The NABT registration desk at the Anaheim Marriott is located in the Marquis Ballroom Foyer. It will be open during the following hours:

Wednesday, October 12	7:30 am – 5:00 pm
Thursday, October 13	6:30 am – 5:00 pm
Friday, October 14	6:30 am – 5:00 pm
Saturday, October 15	6:30 am – Noon

EXPERIENCE THE LEARNING IN LIFE SCIENCES

Visualizing Anatomy and Physiology, 1st Edition
Craig Freudenrich
Gerard J. Tortora, Bergen Community College
978-0-470-49124-9

This visually powerful textbook, illustrated for maximum pedagogical effect, provides engaging content as well as clinical and everyday relevance of the science in all areas of anatomical science and physiology.

Visualizing Environmental Science, 3rd Edition
Linda R. Berg, St. Petersburg Junior College
David M. Hassenzahl, Chatham University
Mary Catherine Hager
978-0-470-56918-4

Delivering a visual approach to learning, this new edition offers improved illustrations, real data analysis, and a real-world perspective of how concepts and phenomenon apply to the field of environmental science.

Visualizing Human Biology, 3rd Edition
Kathleen A. Ireland
978-0-470-56919-1

Helping students connect biology to their own lives, this book presents the role of humans in the environment, presenting topics such as evolution, ecology, and chemistry in an accessible and logical way.

Visualizing Nutrition: Everyday Choices, 2nd Edition
Mary B. Grosvenor
Lori A. Smolin, University of Connecticut
978-1-118-01380-9

This visually rich textbook uses a unique visual approach to help students identify and connect the central issues of nutritional science.

BioClub Student Awards – Rudy Chen, Desert Vista High School, Phoenix, AZ, and Nelly Ventura, Nassau Community College, Garden City, NY

Outstanding student members of the NABT BioClub are eligible for a textbook scholarship from Carolina Biological Supply Company. One high school or two-year college student from each BioClub Chapter can be nominated, with the student being a graduating senior who has been accepted to a two- or four-year college/university.

Sponsored by Carolina Biological Supply Company

Biology Educator Leadership Scholarship (BELS) – Kathleen Remington, Construction Careers Center Charter High School, St. Louis, MO

The Biology Educator Leadership Scholarship (BELS) program was established to encourage and support teachers who want to further their education in the life sciences or life science education. The award recipient is required to be a practicing educator who is also enrolled (or anticipates enrolling) in a graduate program at the Masters or Doctoral level.

Sponsored by NABT Member Donations and PASCO scientific

Distinguished Service Award for Enhancing Education Through Biological Research Criteria – Neil Shubin, University of Chicago, Chicago, IL

Each year, the NABT Distinguished Service Award is presented to a nationally recognized scientist who has made major contributions to biology education through research, writing, and teaching.

Sponsored by NABT

Ecology/Environmental Science Teaching Award – Lisa Volesky, Northside College Prep High School, Chicago, IL

This award recognizes a secondary school teacher who has successfully developed and demonstrated an innovative approach in the teaching of ecology/environmental science and has carried his/her commitment to the environment into the community.

Sponsored by Vernier Software & Technology

Evolution Education Award – Mark Terry, The Northwest School, Seattle, WA

This award recognizes innovative classroom teaching and community education efforts to promote the accurate understanding of biological evolution.

Sponsored by AIBS and BSCS

Four-Year College Biology Teaching Award – James Krupa, University of Kentucky, Lexington, KY

This award recognizes a four-year college faculty member who demonstrates creativity and innovation in his/her teaching.

Sponsored by Pearson Benjamin Cummings and the NABT Four-Year College & University Section

Four-Year College Biology Research/Teaching Award – Erin Baumgartner, Western Oregon University, Monmouth, OR

This award recognizes a four-year college faculty member for his/her recent contribution to research on teaching biology at the college level.

Sponsored by Leica Microsystems, Inc. and the NABT Four-Year College & University Section

Honorary Membership – Louisa Stark, University of Utah, Salt Lake City, Utah

This high honor recognizes those individuals who have achieved distinction in teaching, research, or service in the biological sciences.

Sponsored by NABT

Kim Foglia AP Biology Service Award – Cherylann Hollinger, Central York High School, York, PA

This awards was established in honor of Kim Foglia, an exceptional teacher whose contributions to the Advanced Placement Biology community were unparalleled. The Kim Foglia AP Biology Service Award recognizes an AP Biology teacher who displays a willingness to share materials, serves as a mentor to both students and professional colleagues, creates an innovative and student centered classroom environment, and exemplifies a personal philosophy that encourages professional growth as an AP biology teacher and member of that community.

Sponsored by Pearson

Outstanding Biology Teacher Awards (OBTA)

See the listing on the next page for the names of the recipients in 2011.

Each year, NABT attempts to identify an excellent biology/life science instructor in each of the 50 states, Washington, DC, Canada, Puerto Rico, and overseas territories. Recipients are honored for their teaching abilities and experience, cooperativeness in their schools and communities, inventiveness, initiative, and their student-teacher relationships.

Sponsored by BIOZONE and Leica Microsystems

Outstanding New Biology Teacher Achievement Award – Jim Lane, AFSA High School, Vadnais Heights, Minnesota

This award recognizes outstanding teaching (grades 7-12) by a “new” biology/life science instructor (nominated within his/her first three years of teaching) who has developed an original and outstanding program or technique and made a contribution to the profession at the start of his/her career.

Sponsored by NABT and Ken-A-Vision

Ron Mardigian Biotechnology Teaching Award – Brenda Bott, Shawnee Mission West High School, Overland Park, KS

The Ron Mardigian Biotechnology Teaching Award is given to a secondary school teacher or undergraduate college faculty member who has demonstrated an innovative approach incorporating the principles and processes of biotechnology in the classroom.

Sponsored by Bio-Rad Laboratories, Inc.

Two-Year College Biology Teaching Awards – Caryn Babaian, Bucks County Community College, Newtown, PA

This award recognizes a two-year college biology educator who employs new and creative techniques in his/her classroom teaching. Recipients show skill in teaching, scholarship demonstrated through publications, and innovation related to teaching strategies, curriculum design, or laboratory utilization.

Sponsored by McGraw Hill and the NABT Two-Year College Section

The Outstanding Biology Teacher Award is proudly sponsored by
